Hello friends and colleagues,

We hope your summer is going great! We're up to a lot of good things here at KDS. We've been signing on new clients, creating new content, amplifying our client's successes, attending professional development workshops, and exploring all-staff DEAI training. In fact, we are so busy, we are issuing a call for talent, which you can find [here](#).

At kzanasstrategies.com you can read about what we bring to the table for our clients, what sets us apart, and our ever-growing list of clients and partners. We bring our considerable expertise to all of the Services We Offer.

Have a project in mind you want to run by us? Email heythere@kzanasstrategies.com.

Seeking Federal Funding

Ultimately, you need a grant writer talented and experienced in writing federal grants, but here are some expert insights to get you started.

Opportunity Research

The first in a series of posts by KDS designed to help small and new nonprofit organizations in their fundraising efforts.

Inflation and Nonprofits

KDS is working with its clients on how to craft grant application narrative that explains in no uncertain terms that there is no more belt-tightening to be done.

Volunteerism and Mental Health

Volunteering is intrinsically rewarding, it increases our sense of social connection, it helps develop our self-esteem and confidence, and it creates opportunities to learn new things.

As always, I'm just a phone call or email away,

Christina
